## Our people make us different

Imagine a home care agency that takes the time to sit down with you to understand your needs. A company dedicated to giving you personal attention at every level. At Home Care Assistance, that is our goal. We meet with each client to understand their needs and make sure our caregivers deliver the best services.

All of our caregivers are screened for honesty and integrity with a proprietary psychology test developed exclusively for Home Care Assistance by PhD-trained Psychologists. We also research previous employment and do criminal background checks. Our trained interviewers conduct comprehensive assessments of prospective caregivers, ranking each person on personality traits that are critical for caring.

We employ only the most responsible and qualified people—caregivers who are dedicated to playing a positive role in the lives of our clients. Case Managers monitor our caregivers to be sure they deliver the right care.

## We specialize in live-in care

For people who are looking for a comprehensive alternative to any type of facility, or prefer the comfort and safety of round-the-clock monitoring and care, we offer 24 hour a day, 7 day a week live-in care. A caregiver comes to your home and stays around the clock, ready to assist in all activities of daily living, morning, noon and night.

## Hourly care

Our hourly care ranges from 4 to 24 hours per day. A caregiver comes to your home and helps with meals, housecleaning, laundry, errands as well as personal hygiene. Caregivers can also drive to doctor's appointments, senior centers or any place you want to go.
